STATE	DIVISION	BUSINESS PROGRAM 1/	PROJECT OR PROGRAM	FY2021 BUDGET	FY 2021 EXPLANATORY STATEMENT 2/	ADDITIONAL WORK PLAN AMOUNT	TOTAL FY 2021 ALLOCATION 2/	LINE ITEM OF ADDITIONAL FUNDING 1/	SUMMARY OF WORK TO BE ACCOMPLISHED WITH CONFERENCE ALLOCATION	SUMMARY OF WORK TO BE ACCOMPLISHED WITH ADDITIONAL FUNDING
XX	ERDC	RI	AQUATIC NUISANCE CONTROL RESEARCH	675,000	17,000,000		17,000,000		Address invasive aquatic species that impact the Nation's waterways infrastructure, including (1) correlate water quality and operational practices with harmful algal bloom data from 15 selected sites and select a water quality model for development of a harmful algal bloom operations tool and validate the modeling tool, (2) develop guidance for operational reservoir management practices to minimize impact of harmful algal bloom events, (3) design and complete a data-testing strategy among Corps districts to evaluate the application, usability and cost effectiveness of remote sensing based software tools developed to assist with water quality monitoring and harmful algal bloom indicators (\$2.175 million); supplement activities related to harmful algal blooms with emphasis on fresh water ecosystems (\$4 million); work collaboratively with appropriate university partners to address harmful algal blooms formation, detection, and remediation to enhance protection of vital U.S. water resources (\$3.5 million); develop next generation ecological models to maintain inland and intracoastal waterways (\$7.325 million).	
XX	HQ	RI	ASSET MANAGEMENT / FACILITY EQUIPMENT MANAGEMENT SYSTEM	3,300,000	7,000,000		7,000,000		Maintain asset inventory; assess benefits, risks, and consequences of failure among similar projects and assets through risk-based assessments; develop tools and processes to reduce risk and improve performance; and develop and utilize quantitative information to prioritize the use of available Federal resources (\$6 million). Continue review of inventory as required by section 6002; and develop new approaches in materials research, mechanical engineering, manufacturing that leverages integrated advances in novel computational materials engineering, atomic scale materials physics, data science, and additive manufacturing to transform the maintenance and repair process (\$1 million).	
XX	SWD	RI	CIVIL WORKS CYBER SECURITY CONTROL SYSTEMS	4,000,000	4,000,000	500,000	5,500,000	2	Funds are being used to conduct cybersecurity posture assessments at Corps projects.	Automate system patching process, integrate Civil Works lab connections, and develop continuous monitoring solutions to prevent cybersecurity attacks (\$1.5 million)
XX	SWD	RI	CIVIL WORKS CYBER SECURITY CONTROL SYSTEMS			1,000,000		6		
XX	MVD	RI	CIVIL WORKS WATER MANAGEMENT SYSTEM (CWWMS)	8,000,000	8,000,000		8,000,000		To continue the ongoing Corps effort to develop watershed-based hydrologic and hydraulic models for its projects to inform operational decisions consistent with the authorized project purposes.	
XX	ERDC	RI	COASTAL INLET RESEARCH PROGRAM	2,500,000	10,975,000		10,975,000		Advance knowledge and tools to better predict future channel shoaling, to provide quantitative and predictive tools and data to reduce the cost of maintaining Federal navigation channels and structures, identify potential unintended consequences, mitigate for engineering activities related to navigation channels, and optimize the Corps' O&M practice. Identify engineering frameworks to address coastal resilience needs; develop adaptive pathways that lead to coastal resilience that measure the coastal forces that lead to infrastructure damage and erosion during extreme storm events; improve coupling of terrestrial and coastal models; and continue working with the National Oceanic and Atmospheric Administration's National Water Center on protecting the Nation's water resources.

FY 2021 WORK PLAN - OPERATION AND MAINTENANCE

STATE	DIVISION	BUSINESS PROGRAM 1/	PROJECT OR PROGRAM	FY2021 BUDGET	FY 2021 EXPLANATORY STATEMENT 2/	ADDITIONAL WORK PLAN AMOUNT	TOTAL FY 2021 ALLOCATION 2/	LINE ITEM OF ADDITIONAL FUNDING 1/	SUMMARY OF WORK TO BE ACCOMPLISHED WITH CONFERENCE ALLOCATION	SUMMARY OF WORK TO BE ACCOMPLISHED WITH ADDITIONAL FUNDING
XX	ERDC	RI	COASTAL OCEAN DATA SYSTEM (CODS)	2,250,000	7,500,000		7,500,000		Provide high-quality long-term coastal wave information along with storm-event data nationwide, develop and provide tools for using wave and other data for managing coastal sediment, and support sustainable coastal and navigation projects under a changing climate.	
XX	MVD	RI	CULTURAL RESOURCE	900,000	900,000		900,000		Funds are being used to provide overall management of the Corps' NAGPRA programs and serves as a centralized base for compliance, an information source, and contracting. The Corps facilitates consistent nationwide NAGPRA program implementation and operation, which includes inventorying and summarizing collections, consulting with Indian tribes, researching cultural affiliation and aboriginal occupation, and returning NAGPRA collections to the appropriate Indian tribes.	
XX	NAD	RI	DREDGE MCFARLAND READY RESERVE	11,300,000	11,300,000		11,300,000		Maintain the Dredge McFarland in ready reserve status with sufficient crew to respond within 72 hours when directed to do so for urgent and emergency purposes, and to perform 70 days of required training work in the Delaware River and Bay as specified in its authorization, with dredging work charged to the project dredged.	
XX	MVD	RI	DREDGE WHEELER READY RESERVE	14,500,000	14,500,000		14,500,000		Perform routine maintenance of the Dredge Wheeler and maintain sufficient crew to respond within 72 hours when directed to do so.	
XX	IWR	RI	OPTIMIZATION TOOLS FOR NAVIGATION	392,000	392,000		392,000		Assessment and maintenance of the National Navigation Operation & Maintenance Performance Evaluation, maintenance of a comprehensive vessel lines library, and technical input and support for ongoing development or improvements to the Resident Management System database.	
XX	IWR	RI	DREDGING DATA AND LOCK PERFORMANCE MONITORING SYSTEM	1,120,000	3,570,000		3,570,000		Continue supporting emerging data requirements of the Corps navigation program by maintaining the Lock and Dredging information systems and data warehouse and providing user support and upgrades to security.	
XX	ERDC	RI	DREDGING OPERATIONS AND ENVIRONMENTAL RESEARCH (DOER)	5,250,000	7,500,000		7,500,000		Continue addressing risks related to contaminated sediments in navigation channels and harbors and optimizing dredged material management and beneficial use of dredged materials.	
XX	ERDC	RI	DREDGING OPERATIONS TECHNICAL SUPPORT PROGRAM (DOTS)	2,450,000	6,500,000		6,500,000		Continue expansion of technical response support to field offices encountering navigation and dredging issues and increase vital investments in training of Corps staff in dredging and other navigation mission processes. Further development of the INA V platform related to the operation and maintenance of the U.S. Marine Transportation System.	
XX	HQ	RI	EARTHQUAKE HAZARDS REDUCTION PROGRAM	300,000	300,000		300,000		Provide technical support to Corps offices about the seismic risk of the buildings that the Corps owns or operates and ways to reduce that risk.	
XX		RI	ENGINEERING WITH NATURE		12,500,000		12,500,000		Additional funds from Conference will be used to continue existing projects and collaborations on nature-based infrastructure, including research collaborations with university partners on developing engineering standards, design guidance, and testing protocols (\$5 million). Research into natural infrastructure options focused on drought, flood-prone lands and post fire recovery areas in western landscapes as directed in the House report (\$5 million); and other related work (\$2.5 million).

XX	HQ	RI	FISH AND WILDLIFE OPERATING FISH HATCHERY REIMBURSEMENT	5,400,000	5,400,000		5,400,000		Funds are being transferred to the USFWS to produce and release approximately 12 million mitigation fish at 45 different receiving waters impacted by 37 Corps dams to meet mitigation requirements	
XX	HQ	RI	FACILITY PROTECTION	4,200,000	4,200,000		4,200,000		Supports security risk assessment and prioritization efforts for Civil Works projects under the Critical Infrastructure Protection and Resilience (CIPR) Program using a risk-based approach, in order to enhance the security, protection, and resilience of Civil Works projects.	
XX	IWR	RI	HARBOR MAINTENANCE FEE DATA COLLECTION	795,000	795,000		795,000		Document the operation of the trust fund, analyze waterborne commerce shipments and vessel movement data.	
XX	LRD	RI	INLAND WATERWAY NAVIGATION CHARTS	4,350,000	4,350,000		4,350,000		Continue maintaining the Inland Electronic Navigational Chart (IENC) data for safe and efficient navigation.	
XX	IWR	RI	INSPECTION OF COMPLETED FEDERAL FLOOD CONTROL PROJECTS	18,000,000	23,000,000		23,000,000		Funding to provide central oversight and support for the Corps effort to enable local communities to understand the risks associated with the levee systems that the Corps constructed for them, including risk assessments of certain high-risk Federally authorized levee systems.	
XX	IWR	RI	LEEVE SAFETY PROGRAM/NATIONAL (LEEVE) FLOOD INVENTORY	4,500,000	4,500,000		4,500,000		Operate, maintain, and update the National Levee Database to reflect the best available risk-based information on levee systems, and to implement software revisions to improve its functionality and usability based on user feedback.	
XX	ERDC	RI	MONITORING OF COMPLETED NAVIGATION PROJECTS	3,800,000	10,000,000		10,000,000		Collect information about changes in sediment transport, water levels, currents, waves, flushing, river flows, ice, structure deterioration, and other coastal and river hydraulic phenomena with associated marine transportation and environmental impacts in order to identify operational and maintenance efficiencies and to improve project performance (\$6 million). Support structural health monitoring program to facilitate research to maximize operations, enhance efficiency, and protect asset life through catastrophic failure mitigation (\$4 million).	
XX	SAD	RI	NATIONAL COASTAL MAPPING PROGRAM	5,000,000	11,300,000		11,300,000		Continue collecting data along the Gulf of Mexico, Atlantic, Great Lakes, and Pacific coasts for regional sediment management, regulatory, flood damage reduction, asset management, emergency operations, and environmental stewardship in the coastal zone (\$7.5 million). Arctic coastal mapping needs (\$3.8 million).	
XX	IWR	RI	NATIONAL DAM SAFETY PROGRAM (PORTFOLIO RISK ASSESSMENT)	10,500,000	10,500,000		10,500,000		The Corps uses these funds to manage its overall effort to reduce the risk of loss of life and property damage that would occur from the failure of a Corps dam.	
XX	HQ	RI	NATIONAL EMERGENCY PREPAREDNESS PROGRAM (NEPP)	5,000,000	5,000,000		5,000,000		Funds are being used to support Corps readiness to provide rapid response to disaster.	
XX	HQ	RI	NATIONAL NATURAL RESOURCES MANAGEMENT ACTIVITIES	3,500,000	3,500,000		3,500,000		The Corps uses these funds for national recreation program initiatives such the park ranger uniform contract; a dozen "Handshake" partnerships; the Water Safety MCX and associated national programs; environmental compliance work; the printing and publishing of NRM materials; support to volunteer clearinghouse; and a variety of sustainability work efforts including more energy audits, ESPC work, power purchase agreements, and data management to support USACE Sustainability Plan development and Scorecard submission.

XX	IWR	RI	NATIONAL PORTFOLIO ASSESSMENT FOR REALLOCATION	500,000	500,000		500,000		Funds are being used to assess data and develop a consistent national approach to achieving consistent and sustainable water withdrawals (permanent reallocations and surplus water) including identification of status and challenges for USACE Reservoirs and to conduct initial assessments of pending reallocation requests.	
XX	IWR	RI	PERFORMANCE BASED BUDGETING SUPPORT PROGRAM	2,000,000	4,500,000		4,500,000		Modernization of the Corps of Engineers Financial Management System (CEFMS) (\$2 million). Support performance based methods that enable robust budgeting of the hydropower program through better understanding of operation and maintenance impacts leveraging data analytics (\$2 million); and other related work (\$500K).	
XX	IWR	RI	RECREATION MANAGEMENT SUPPORT PROGRAM	1,450,000	1,450,000		1,450,000		Provides a nationwide funding source at HQ USACE for centralized procurement of items used by all operating projects with a natural resources management program. Funding also provides for the Recreation One-Stop Initiative (previously funded separately).	
XX	ERDC	RI	REGIONAL SEDIMENT MANAGEMENT	3,500,000	8,500,000		8,500,000		Improve regional approach to the national navigation program to identify common issues that are better solved on a regional basis (\$3.5 million). Continue Corps research and development into enhanced forecasting capabilities to implement proactive strategies for flood risk management to enhance the resiliency of coastal communities and mitigate socioeconomic and environmental consequences of extreme coastal hazards; Support cooperative efforts between the Corps and academia to address compound flooding issues (\$5 million).	
XX	HQ	RI	RESPONSES TO CLIMATE CHANGE AT CORPS PROJECTS	0	5,000,000		5,000,000		Position water resources projects to be managed as systems due to the implications of changing climate.	
XX	IWR	RI	REVIEW OF NON-FEDERAL ALTERATIONS OF USACE CIVIL WORKS PROJECTS	9,000,000	9,000,000	1,000,000	13,000,000	2	Review requests to alter Corps projects and coordinate with the requestor. Through Section 408 reviews, the Corps ensures that the alteration will not adversely impact the public interest and will not impair the usefulness of the authorized Corps project. The number of Section 408 requests in any year is dependent on many factors – primarily actions, schedules, and resources external to USACE. In its review of section 408 requests, the Corps considers a range of factors, such as the effects of the proposed alteration on the reduction of risk to life safety, the reduction of the risk of flood damages, the environment, the project's ability to meet its other authorized purpose(s), and tribal considerations.	Continue to review incoming 408 requests (\$4,000,000)
XX	IWR	RI	REVIEW OF NON-FEDERAL ALTERATIONS OF USACE CIVIL WORKS PROJECTS			3,000,000		6		
XX	HQ	RI	SOIL MOISTURE AND SNOWPACK MONITORING		5,000,000		5,000,000		Provide support to NRCS and the states of Montana, North Dakota, South Dakota, and Wyoming on soil moisture and snowpack monitoring in the Upper Missouri River Basin	
XX	IWR	RI	STEWARDSHIP SUPPORT PROGRAM	900,000	900,000		900,000		Provide broad support to Environment-Stewardship function at operating projects by assisting in the identification of national program needs, the development of new national program activities, strategic program planning, and the recommendation of national stewardship program funding priorities.	
XX	IWR	RI	SUSTAINABLE RIVERS PROGRAM (SRP)	500,000	5,000,000		5,000,000		Evaluate flows below specific USACE reservoirs, apply resulting information to inform project operations, and refine best management practices for broader implementation at USACE reservoirs.
