NOTES:  
 \* - Project being reevaluated is for a hard structure protecting a water treatment plan immediately adjacent to Lake Michigan and for sand nourishment  
 \*\* - President put this CAP program under O&M. All CAP programs are paid for out of the Construction budget. None is appropriate for O&M funding. Congress corrected this in the final bill  
 \*\*\* - For the infrastructure bill, Congress has required that some funds not be allocated prior to the issuance of the President's FY23 budget request. The numbers used in this chart for the infrastructure bill only are estimates assuming beach nourishment gets 20% of the total funds required to be held back. That is an optimistic assumption
